

VIDEO TITLE		
Video length	Production date	Catalog #
Description		

This catalog includes the Idaho Content Standards for easier selection of appropriate resources.

Content Standard 1 **PARENT ORIENTATION**

DYING TO GET THERE, THE REAL COST OF RECKLESS DRIVING

21 min 2004 **1270**
This video opens a potentially life-saving teen-to-teen dialogue on driving-related tragedies involving drivers, passengers and pedestrians. There are first-hand stories of real car wrecks with severe consequences that demonstrate driving is no joyride. Good for Parent Night.

GREATEST HEARTACHE YOU'LL EVER KNOW

20 min 1993 **1041**
State trooper, Lt. Pete Collins, tells of too many times he's had to inform parents that their world has just come to an end because of drinking and auto crashes. Effective for "Parent Night."

SO YOU THINK YOU'RE GOING TO LIVE FOREVER

20 min 1990 **1095**
State trooper, Lt. Pete Collins uses feelings and emotions to discuss the senseless tragedies and the young people who thought death on the highway happens to someone else.

STREET SMARTS

17 min 1996 **1181**
TV-style video program aimed at both teen and parents. Tells the story of how a 16 year old and his dad go from emotionally charged driving practice sessions to more productive and less stressful driving lessons. Good for a "Parent Night" discussion.

YOUNG DRIVERS THE HIGH RISK YEARS

15 min 2002 **1166/1264**
Parents tell their story about losing their child in a crash. Focus on graduated license and teens talk about their driving experiences. Excellent for "Parent Night" activity.

Content Standard 2

PREPARING TO OPERATE A VEHICLE

FASTEN YOUR SEAT BELT...GO FAR

15 min 2002 **1271**
Teens view and discuss five Public Service Announcements created by teens for teens. This video can provide opportunities for discussions about using seat belts and gives samples for your students to develop their own PSAs.

IT'S YOUR CHOICE

10 min 1992 **1053**
Seat belt safety video produced by the Smith System.

KIDS AND AIRBAGS

5 min 1998 **1191**
Although airbags have prevented injuries and saved lives, they can also cause injury and even death. Using crash test footage and demonstrations of correct infant and child restraint use, this video demonstrates how to ensure optimum protection for everyone.

KIDS AND AIRBAGS SPANISH VERSION

5 min 1998 **1192**

REDUCING YOUR RISKS IN A CRASH

9 min 1996 **1186**
This video uses crash test footage of what happens during crashes to demonstrate how to get the maximum benefit from safety restraints. It shows how to properly buckle up and adjust head restraints and explains why you should sit back and away from the steering wheel and air bag.

Content Standard 3

SIGNS/SIGNALS/ MARKINGS AND RULES OF THE ROAD

PAINT ON THE PAVEMENT

10 min 1992 **1133/1155**
Students learn pavement markings make driving safer and smoother. The markings are identified by their color or symbol. Explains laws and regulations that help reduce crashes and save lives when understood and obeyed.

Content Standard 3 (cont)

RIGHT-OF-WAY

10 min 1992 **1130**

An upbeat video focusing on something we all need more of - drivers' etiquette! A wide variety of situations are encountered that help to illustrate right (and sometimes the left!) ways to handle different types of stop sign intersections, lane changes and signal intersections.

SIGNS AND SIGNALS

10 min 1992 **1147/1148**

This is a fast-paced video that also quizzes the students on the many signs and signals they face on a daily basis as drivers.

SIGNS, SIGNALS & MARKINGS

17 min 1995 **1206**

Describes the underlying rules and logic behind traffic control signs, signals, and markings and why they are important to drivers.

UNDERSTANDING TRAFFIC SHAPES,COLORS,SIGNALS,ETC

16 min 1999 **1044**

Sign shapes, lane marking, traffic signals, and traffic colors are flashed on the screen for a period of four seconds. Students are given approximately eight seconds to identify the meaning of the traffic control. The scenes are repeated with the correct response, plus pertinent driving tips and strategies.

UNDERSTANDING TRAFFIC SIGNS & SYMBOLS

17 min 1999 **1045**

Thirty-six traffic signs and symbols are flashed on the screen for a period of four seconds to identify the meaning of each sign. The scenes are repeated with the correct response, plus pertinent driving tips and strategies.

Content Standard 4

BASIC CONTROL TASKS

A=B+S ABS TRAINING VIDEO

4 min 1998 **1210**

Describes in a compelling way, the benefits and correct use of ABS brakes.

BASIC CAR CONTROL

10 min 1992 **1010**

Common driving maneuvers including the infamous three-point turn as well as the danger and excitement of driving in reverse. Viewers are shown that there are universal truths in driving no matter what type of vehicle you drive.

DON'T LET UP! (ANTI-LOCK BRAKING SYSTEMS)

10 min 1994 **1160**

Video contains footage of high school driver education students using ABS for the very first time. You and your students will see these young drivers face three simulated emergency situations in a car without ABS and in a car with ABS.

DRIVER-ZED CD-ROM

120 min 1998 **1007**

A crash course in crash prevention! This program puts the teen in the driver's seat with real-life interactive full-screen full-motion video. Teaches novice drivers how to spot hazards and make safe decisions behind the wheel. Available for windows-based programs. Not available for Macs.

DRIVABILITY, CAR CONTROL CLINICS

20 min 2003 **1266**

Covers the gamut of control concepts from sitting position and mirror adjustment to steering grip, steering technique, speed management, and vision techniques.

FOLLOWING DISTANCE RESOLVING THE DEBATE

13 min 2000 **1182**

The driver of a truck learns that tailgating/following too close is not only dangerous, but does not save time.

PRACTICING BASIC CONTROL TASKS BTW

16 min 2002 **1273**

Demonstrates parking, entering traffic, steering, backing up, turning around and following distance.

PRECISION TURNS

15 min 1995 **1197**

Shows how to use Reference Points and Targeting to achieve consistently accurate turns.

REFERENCE POINTS

22 min 1995 **1195**

Describes Reference Points and how to use them to maneuver the vehicle exactly where you want it to be.

STOMP, STAY AND STEER: ABS USE

4 min 2000 **1262**

Shows how ABS works and stresses the importance of stomp, stay and steer.

TARGETING

14 min 1995 **1196**

Develops driver's ability to look more than 12 seconds ahead while keeping an accurate tracking path.

Content Standard 5

VISION CONTROL

20/20 IS NOT ENOUGH

30 min

1994

1189

This video gives an overview of visual techniques and strategies for drivers. It presents theories, tests and tips to optimize visual skills.

USING YOUR EYES EFFECTIVELY

9 min

1994

1208

Discusses the two types of vision, central and peripheral, and where to concentrate your attention. Also discusses the effects of alcohol on a driver's visual perception.

MANAGING RISKS

CHILDREN IN TRAFFIC

13 min

1999

1017

Updated and revised version of the AAA classic video. It presents real-life footage showing how children's perceptions of traffic differ from those of adults. It provides insight on why children behave unexpectedly and is a must-see for all drivers.

HABIT DEVELOPMENT USING ZONE CONTROL

16 min

1995

1199

Encourages the development of low-risk, high gain habit formation.

ULTIMATE DRIVING CHALLENGE, THE

48 min

1993

1113/1263

A Unique, interactive self-test that covers collision avoidance, defensive driving, safety awareness, highway driving and other alternative actions. Best used in small segments.

VALVOLINE NATIONAL DRIVING TEST VOLUME I

40 min

1989

1118/1119

Twenty-five questions that could save your life. Hosted by Christopher Reeve.

VALVOLINE NATIONAL DRIVING TEST VOLUME II

48 min

1990

1120/1121

The test that keeps you from becoming a statistic. Hosted by Robert Urich, as seen on TV.

WHEN YOU LEAST EXPECT IT!

22 min

1992

1125

The video dramatically demonstrates that if we pay attention to what is happening inside of us, around us, and ahead of us, we can prevent accidents from happening when we least expect them.

Revised 09/2005

MANAGING TIME AND SPACE

DEFENSIVE DRIVING TACTICS

16 min

1989

1018

Two professional drivers demonstrate the difference between defensive driving and aggressive driving as they participate in a safe driving test through the city streets and on superhighways.

FOLLOWING TIME & SPACE

30 min

1995

1203

The driver experiences how and why four seconds of following distance will result in the best habit to minimize stress and maximize control.

MANAGING TIME & SPACE FOR SAFE DRIVING

8 min

1991

1207

Illustrates maintaining a safe space cushion, following distance and actively using your eyes.

REAR ZONE CONTROL

27 min

1995

1202

Demonstrates when and how to use the mirrors to reduce high-risk rear zone situations.

ZONE CONTROL PRACTICE

18 min

1995

1205

Presents the driver with opportunities to apply the principles, concepts and procedures of the Zone Control Driving System.

ZONE CONTROL FOR AWARENESS

38 min

1995

1198

Introduction to the Zone Control System.

Content Standard 6

INTERSECTIONS

INTERSECTIONS – AMONG THE MOST DANGEROUS PLACES ON EARTH

22 min

2003

1265

Use of Smith System's 5 Keys to reduce threats in and around intersections.

SEARCHING INTERSECTIONS

20 min

1995

1200

Develops techniques for searching the left, front, right zones before entering intersection.

PASSING AND BEING PASSED

PASSING-CHANGING LANES

18 min 1989 **1078/1142**

Every pass, every lane change exposes a driver to danger. Shows strategy about when and how to pass in all situations. Also covers what you should do when being passed.

VEHICLE CONTROL IN LIMITED SPACES

BACKING & PARKING

18 min 1995 **1204**

With the application of Reference Points, the driver is able to position any vehicle with consistency and accuracy while parking.

Content Standard 7 **NATURAL LAWS**

UNDERSTANDING CAR CRASHES, IT'S BASIC PHYSICS

22 min 2000 **1237**
DVD 1267/1268

What happens to vehicles and their occupants in crashes is determined by science. "You can't argue with the laws of physics," says Griff Jones, award-winning high school physics teacher who goes behind the scenes at the Institute's Vehicle Research Center to explore the basic science behind car crashes. Using a series of vehicle maneuvers on a test track plus filmed results of vehicle crash tests, Jones explains in anything but lecture style the concept of inertia, the relationship between crash forces and inertia, momentum and impulse, and a lot more.

TO SUPPLEMENT THE VIDEO TEACHER'S GUIDE FOR "UNDERSTANDING CAR CRASHES: IT'S BASIC PHYSICS"

The lessons in this guide introduce students to the physics of car crashes with grade-level appropriate activities designed to meet national science standards. Guide includes teacher lesson plans and student activity sheets intended to supplement a high school physical science curriculum with hands-on activities that demonstrate basic physics principles and relate them to car crashes. Download free from:

<http://www.highwaysafety.org/videos.htm> or call 703/247-1547 to order copies.

NEGOTIATING CURVES

APPROACHING CURVES

28 min 1995 **1201**

Shows the variable factors affecting speed control and how to assess and select an effective speed.

Content Standard 8 **RURAL DRIVING**

DRIVING IN TRAFFIC: RURAL HIGHWAY HAZARDS

22 min 1999 **1038**

Focuses on passing, safe following, slow moving vehicles, RR crossings, construction, unsafe road design, adverse conditions, hazardous actions of other roadway users, and traffic controls commonly found on country roads.

MOUNTAIN DRIVING

15 min 1990 **1072**

This video introduces students to the different situations they may encounter while driving in hilly terrain.

RURAL ROAD SAFETY: DRIVE SMART AND STAY ALIVE

15 min 2001 **1234/1261**

By the Farm Bureau of Idaho. Discusses some of the issues rural drivers and farmers face. Produced in the Treasure Valley area and includes Idaho students and their driver education instructor.

URBAN DRIVING

ACCIDENT FREE CITY DRIVING

15 min 1994 **1134**

City driving provides many conflicts and problems for unprepared drivers. This video focuses on techniques and procedures of observing, communicating, vehicle positioning, passing, following and turning.

CITY DRIVING TACTICS

20 min 1993 **1014**

Driving on city streets can be hectic! Within one mile on a city street, a driver has to make approximately 58 separate decisions - nearly one decision every second!

DRIVING IN TRAFFIC: CITY HAZARDS

20 min 1999 **1037**

Highlights include reacting to adverse weather conditions, scanning strategies, RR crossings, blending safely in traffic, choosing a safe speed, reacting correctly to hazardous actions of other roadway users, plus signs and other traffic controls commonly encountered on city streets.

FREEWAY DRIVING

DRIVING IN TRAFFIC: EXPRESSWAY HAZARDS

22 min 1999 **1039**
Emphasizes entering and exiting the expressway, choosing the safest lane, safe following, blind spots, trip planning, adverse conditions, construction, blending safely in traffic, and reacting correctly to traffic controls.

FREEWAY DRIVING

11 min 199 **1131/1149**
Doctors diagnose a young woman with a severe case of "freeway phobia." She is compelled to drive on the freeway to reach a huge CD sale. On her journey, we see how and how not to drive on a freeway.

FREEWAY PHOBIA, PART 1

15 min 2000 **1219**
In this video, Disney's animated characters portray typical types of highway drivers. Characterizes errors in driving as well as driving methods necessary for crash prevention. Specific problems discussed: use of "on" and "off" ramps, changing lanes.

FREEWAY PHOBIA, PART 2

15 min 2000 **1220**
In this video, Disney introduces a new character that is a menace to all motorists who must share the roads with him. Among the specific problems discussed are: faulty tires, brakes, wipers, hood latches, loose objects in the vehicle, carelessly loaded trailers, inadequate fuel supply, etc.

ADVERSE CONDITIONS

DRIVING UNDER ADVERSE CONDITIONS

15 min 1992 **1156**
Emphasizes the environmental factors that cause limited visibility and reduced traction and maneuverability. Special attention is given to the hazards of snow, fog, sleet, glare, wind and ice.

DRIVING IN BAD WEATHER

17 min 1999 **1226**
After watching this video, viewers will be able to recognize dangerous weather-related driving conditions and adapt driving to meet weather conditions. Terms discussed include hydroplaning, overdriving headlights, following distances and visibility in poor weather conditions.

NIGHT VISION

15 min 1992 **1158**
Behind-the-wheel scenes highlight problems associated with night driving.

Night Lights

12 min 2001 **1248**
"Night Lights" explains the benefits of reflective materials that make our roads safer. The reflective materials and technology make night-time vision clearer. There is also discussion about the importance of properly maintained vehicles (clean, working wipers, and lights)

READY, SET, WINTER

12 min 1996 **1193/1242**
This video provides a brief overview of how to prepare the vehicle for winter weather, describes several driving situations that require special attention and explains how to handle common winter driving problems.

SAFE WINTER DRIVING

8 min 1996 **1188**
Washington State Patrol describes some of the factors that contribute to winter driving safety, such as proper tires, chains and supplies to be kept in the trunk.

SURVIVING THE COLD

20 min 1990 **1100**
Stranded in the mountains by a severe winter blizzard, Ed and Paul abandoned their vehicle to hike the remaining half-mile to shelter. Badly chilled, confused, and disoriented, they walked for nearly three hours before reaching their destination. They were lucky to survive.

WINTER DRIVING

15 min 1997 **1129**
There are many safety precautions, preventative measures, and tactics to learn before driving in winter conditions.

Content Standard 9

ALCOHOL & DRUGS

ALL THE KIDS DO IT

30 min 1990 **1001**
Dramatizes the dangers of drinking and driving from the teen point of view. It stars Scott Baio as Buddy, a high school student and Olympic caliber diver who learns why drinking and driving don't mix. The film helps young drivers realize that they must take responsibility for their own safety.

Brandon Tells His Story

28 min 2001 **1259/1260**
You'll hear first hand from Brandon what it's like to fight every day to get his life back to where it was. Most of all, you'll see how many lives can be changed forever by one irresponsible decision.

DUI- DEAD IN 5 SECONDS

18 min 2001 **1244**
Realistic portrayal of drinking and its effects through a montage of images, some graphic, and interviews.

JUST ANOTHER SATURDAY NIGHT

13 min 1998 **1194**
Updated version of the popular video, "Just Another Friday Night." Drinking and driving, single vehicle crashes.

JUST CALL ME CRASH

30 min 2001 **1246**
This is the story of a professional model who is permanently disfigured as the result of a drinking and driving crash. The woman shares a powerful message on drunk driving, drug abuse, alcoholism, and abusive relationships.

LAST NIGHT OF SUMMER

26 min 1988 **1060**
This video is intended to replace myth and misinformation about DUI laws and the arrest procedure with factual information. The action begins with a poolside party, marking the "last night of summer" and the beginning of a new school year for the youthful participants.

MISSING PERSONS: THE DRUNK DRIVING HOLOCAUST

30 min 1992 **1236**
"Missing Persons" unites bereaved parent and friends; permanently disabled victims, and inmates convicted of vehicular homicide, to get young people to become more aware of the relationship between alcohol, death and prison.

SOBER GRADUATION

18 min 1990 **1096**
This quick-paced film cuts in and out of a variety of scenes to make a very powerful statement about the tragedies of drinking and driving. Interviews with victims and the victims' family members, as well as with young drivers who had driven under the influence are interspersed with scenes.

SOBER THOUGHTS: ON DRINKING & DRIVING

14 min 1992 **1097**
"They're not out there drinking anymore, and I think it took me becoming paralyzed and in a wheelchair to make my friends around here realize..."this is how one young man interviewed in "Sober Thoughts" describes the change in U.S. society.

TONEY LINEBERRY STORY

33 min 1988 **1108/1109**
If you could keep someone you love from life in a wheelchair, would you? He had just turned eighteen. He was the captain of his wrestling team. He had a

steady girl, and the car of his dreams. Find out how his disregard for safety turned his life into a nightmare.

TROOPER TALL TALES

20 min 1990 **1112**
Lt. Pete Collins looks at the hilarious side of life on the highway. The program ends with a serious message about the dangers of drinking and driving.

EMERGENCY SITUATIONS

EMERGENCY SITUATIONS

10 min 1993 **1132/1151**
Describes common emergencies and the proper reactions to minimize chance of injury.

IN CONTROL

35 min 1996 **1185/1241**
Addresses the skills and specialized knowledge required for control in today's cars in an emergency situation. Features sections on anti-lock brakes and tailgating, with emphasis on common applications of evasive techniques.

STEPS TO TAKE AT AN ACCIDENT

15 min 1988 **1099**
Every driver needs to be prepared to take the right actions after an accident has happened. Most drivers will be involved in an accident at least once. An outline of information to obtain is provided. Knowing what to do in the first critical minutes after an accident will help.

DOS AND DON'TS AT THE GAS PUMP

2004 **1269**
This video explains the hazards of refueling and the proper steps to follow when refueling or filling containers.

SHARING THE ROAD

PATHS OF THUNDER II

16 min 1998 **1209**
Updated version of Paths of Thunder (Rail Grade Safety.)

ROLL CALL: HIGHWAY-RAIL GRADE CROSSING SAFETY

10 min 1999 **1223/1240**
This video is designed to help increase public awareness through law enforcement at highway-rail grade crossings and along railroad rights-of-way.

SAFETY ZONE

16 min 1995 **1163/1243**
Safety Zone (sharing the road with trucks) addresses important issues that all drivers should know, such as blind spots, following distances, weight ratios, etc.

IT'S YOUR CHOICE

10 min 2000 **1274**
People who choose to trespass on railroad rights-of-way and fail to yield at highway-rail crossings are involved in numerous deaths and critical injuries each year. These tragedies can easily be prevented: It's Your Choice. Video shows perspective of engineers, parents and statistics to discuss dangers of RR crossings and what to do to stay safe around crossings.

Content Standard 10

DRIVER FITNESS AND RESPONSIBILITIES

DON'T BUG OUT!: AGGRESSIVE DRIVING KILLS

1 min 2000 **1235**
National Road Safety Foundation presents three short PSA's about aggressive driving.

DRIVING SAFELY: REASON ON THE ROAD

15 min 1999 **1225**
This video will help students recognize unsafe driving techniques and how to avoid them and avoiding road rage. A short quiz at the end.

HEADS UP AT THE WHEEL: HOME SAFE

11 min 1996 **1179/1180**
Features information on drowsy driving, warning signs and prevention strategies.

MOTOR MANIA

8 min 2000 **1221**
Disney shows an ordinarily pleasant citizen that turns into a demon driver the moment he gets behind the wheel. As a pedestrian, he is a mild mannered guy, unfazed by the chaos he creates around him. When he climbs back into the car, he becomes the "mad motorist" again.

NBC DATELINE: DISTRACTED DRIVER SERIES

50 min 2001 **1227**
Road test given on training course to experienced drivers who are asked to perform other tasks while driving. Shows how much the vehicle moves even with little distractions.

PREVENTING ROAD RAGE

20 min 1998 **1212**
Teaches how to avoid offending other drivers by managing anger and disengaging from an angry encounter.

ROAD RAGE, COMBATING AGGRESSIVE DRIVING IN WASHINGTON STATE

11 min 2000 **1272**
Shows and discusses aggressive drivers and aggressive driving behaviors and their possible consequences. Shows what the State of Washington has done to combat the issue of aggressive driving.

ROAD RAGE - HAVOC ON THE HIGHWAY

18 min 1998 **1215**
Offers possible reasons why otherwise capable people suddenly drive as if the freeway has turned into "bumper cars" with a deadly twist. Actual "crash" footage is included.

ROAD RAGE: HOW TO PROTECT YOURSELF

15 min 1998 **1214**
Information drivers need to know about maneuvering safely in today's stressful and often dangerous driving environment. Reviews common situations that can trigger conflicts between drivers, and offers practical tips for avoiding road rage.

ROAD RAGE – NBC DATELINE NBC

20 min 1997 **1213**
Investigative report on road rage by NBC.

Program Enhancement

BUYING AND OWNING A VEHICLE

HOT CARS COLD FACTS

23 min 1990 **1046**
Auto Theft: How to protect your vehicle. Gives statistics on stolen vehicles.

I'VE GOT IT

9 min 1990 **1047**
Introduces students to vehicle insurance. Emphasizes the importance of safe driving as a way to keep insurance costs down.

VEHICLE SAFETY: BE PREPARED

14 min 1999 **1224**
Unsafe vehicles can cause problems. This video shows some of the things you can do to keep your car and yourself safer on the road. It identifies some of the sounds that you might hear; what different vibrations might mean; and the importance of properly adjusting yourself in the seat.

TEXT BOOK VIDEOS

DRIVE RIGHT VIDEO 1 THE DRIVING TASK AND VEHICLE CONTROL

2000

1250/1252

This video goes along with the Drive Right textbook. Contained in this video are presentations on Risk Management and the IPDE process (Ch 4), Natural Laws and Car Control (Ch 5), Performing Basic Maneuvers (Ch 6), Negotiating Intersections (Ch 7) and Sharing the Roadway (Ch 8). Includes teacher's guide.

DRIVE RIGHT VIDEO 2 DRIVING IN DIFFERENT ENVIRONMENTS

2000

1251/1253

This video goes along with the Drive Right textbook. Contained in this video are presentations on Driving in Different Environments, Urban Driving (Ch 9), Rural Driving (Ch 10), and Expressway Driving (Ch.11)

LICENSE TO DRIVE: VIDEO 1: BE SAFE

22 min

2001

1228/1254

Using the SAFE (Scan, Assess, Find out, Execute) method to improve driving skills. Film identifies what SAFE is, followed by identifying what your space cushion is and how to improve the space around you. The third segment discusses common courtesies.

LICENSE TO DRIVE: VIDEO 2: CONDITION OF THE DRIVER

22 min

2001

1229/1255

What are some conditions that affect the way you drive? This video discusses vision, fatigue, road rage and other distractions, with the use of simulations, stories, pop quizzes and tips to improve or prevent these things from interfering with your ability to drive.

LICENSE TO DRIVE: VIDEO 3: PARKING

22 min

2001

1230/1256

This video discusses and demonstrates various types of parking: hill parking with a standard transmission, parking garages, parallel parking, and disabled parking spaces. Includes simulations, stories, pop quizzes and tips for improvements.

LICENSE TO DRIVE: VIDEO 4: CHALLENGING DRIVING CONDITIONS

22 min

2001

1231/1257

Stories, simulations, pop quizzes and tips for improving night driving, going through tunnels and over bridges, mountain driving, negotiating potholes and other obstacles, and how to get out of the mud when stuck.

LICENSE TO DRIVE:

VIDEO 5: INTERSECTIONS

22 min

2001

1232/1258

Stories, simulations, pop quizzes and tips for improving performance and knowledge of right-of-way, railroad crossings, controlled and uncontrolled intersections.

RESPONSIBLE DRIVING: VIDEO 1

35 min

1999

1216

Goes along with the textbook and includes the Highway Transportation System and risk management, emotions affecting your driving ability, and temporary physical conditions.

RESPONSIBLE DRIVING: VIDEO 2

50 min

1999

1217

Managing visibility, time and space on urban streets and rural roads

RESPONSIBLE DRIVING BASIC DRIVING CONCEPT

34 min

2000

1218

Goes along with the textbook and covers the following chapter segments: risk management, physical factors, emotional factors, pavement markings, traffic control devices and changing lanes.
